MEMORANDUM FOR FLEET ADMIRAL LEAHY:

Subject: White House Liaison.

1. The Central Intelligence Group has established liaison channels with many agencies of the Government through the designation by the chiefs of those agencies of a single person to control all liaison contacts and relationships with the CIG.

2. I believe it would be advantageous if such a person on the Staff of the President were designated at this time. I shall then direct that all members of CIG restrict their mutual liaison with the President's Staff to this person.

3. I shall, of course, continue to refer to you personally those matters having basic policy aspects.
